Hello Friend,

We hope you're excited! With a week and a day to go until our first in-person event in almost two years, things are getting mighty real in anticipation of our annual Mighty Real Gala next Friday at the Four Seasons. We hope you're able to join for an incredible evening. Proceeds from the gala benefit PRC's essential services for the City's most vulnerable, and we couldn't be more thankful to everyone involved.

Be sure to read this month's interview featuring PRC staff member Michelle Sanchez, and the incredible work she and her team at PRC's Hummingbird Respite Centers are doing to help San Francisco's homeless.

Enjoy!

HOW HUMMINGBIRD CENTERS ARE HELPING HOMELESS PEOPLE
ACCESS SERVICES

Picture yourself living on the streets of San Francisco: you've lost your job, your home, your friends, your support system, and as a result, you've lost all confidence that things
will change for the better. That's where we step in. When all hope is lost, there's PRC.

Michelle Sanchez is the project director for the new Hummingbird Valencia location, and we recently sat down with her to give our readers an inside look into what services these locations offer, and how they can have a positive impact on person’s life.

THANK YOU!

We are deeply grateful to our community partners who help us to provide safe and effective essential services to our clients.

Love, Tito's

Tito's has been instrumental in providing critical funding to ensure San Francisco’s most vulnerable citizens achieve better financial and health outcomes. With Tito's generous support of so many of our events, such as the annual Pride Brunch and Mighty Real Gala, PRC has been able to raise awareness as well as hundreds of thousands of dollars to make sure the more than 5,000 clients we help each year have the services they need.

We are so thankful for your partnership!

The mission of PRC is to help people affected by HIV/AIDS, substance use, or mental health issues better realize opportunities by providing integrated legal, social, and health services that address the broad range of social risk factors that impact wellness and limit potential.
